1. NATURE OF OPERATIONS

Collective Mining Ltd. (“CML”) is the resulting issuer upon completion of a three-cornered amalgamation between Collective Mining Inc. (“CMI” or “Old Collective”) and POCML 5 Inc. (“POCML”), a company listed on the Toronto Stock Venture Exchange (the “TSXV”), resulting in a reverse take-over of POCML by CMI (the “RTO” or the “RTO Transaction”) on May 20, 2021. (See Note 14).

CMI was incorporated under the Business Corporations Act (Ontario) on February 11, 2020 and was the holding company of the wholly-owned subsidiary Collective Mining Limited, a Bermuda company incorporated under the Bermuda Companies Act 1981. In addition, wholly owned subsidiaries, incorporated in Colombia, hold certain exploration properties. Prior to May 20, 2021, CMI was controlled by a founding shareholder, who is also the Executive Chairman of the Board of Directors.

On May 20, 2021, pursuant to the closing of the RTO, CML’s common shares were accepted for listing and began trading on the TSXV under the symbol “CNL”.

The registered office for CML is located at 82 Richmond St E 4th Floor Toronto, Ontario, Canada.

CML and its subsidiaries (collectively referred to as the “Company”) are principally engaged in the acquisition, exploration and development of mineral properties located in South America. The Company principally carries on business through an Ontario corporation and a foreign company branch office in Colombia.

To date, the Company has not generated any revenue from mining or other operations as it is considered to be in the exploration stage.

2. BASIS OF PREPARATION

Statement of Compliance

The unaudited interim consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim consolidated financial statements, including International Accounting Standard (“IAS”) 34, Interim Financial Reporting (“IAS 34”), on a basis consistent with those accounting policies followed by the Company in the most recent audited annual consolidated financial statements.

These interim financial statements do not include all the information required for full annual financial statements. Certain information, in particular, accompanying notes normally included in the audited annual consolidated financial statements prepared in accordance with IFRS, has been omitted or condensed. The accounting policies and the significant judgements, estimates and assumptions used in the application of the accounting policies in the preparation of these unaudited interim consolidated financial statements are those described in notes 2, 3, and 4 of the audited annual consolidated financial statements for the year ended December 31, 2021 and have been consistently applied throughout all periods presented as if these policies had always been in effect.

These unaudited interim condensed consolidated financial statements were approved and authorized by the Audit Committee, on behalf of the Board of Directors of the Company, on May 25th, 2022.

3. NEW ACCOUNTING STANDARDS

(a) New Accounting Standards and Interpretations adopted

- i. IAS 16, Property, Plant and Equipment ("IAS 16") was amended to prohibit the deduction of proceeds from the sale of items produced from an item of property, plant and equipment while the entity is preparing the asset for its intended use. IAS 16 further clarifies that the financial performance of the asset is not relevant in the assessment of the technical and physical performance of the asset.

Effective January 1, 2022, the Company adopted the amendment to IAS 16. The adoption did not have an impact on the Company's consolidated financial statements as the Company is not yet in the construction phase.

(b) New Accounting Standards and Interpretations not yet adopted

The following revised standards and amendments, unless otherwise stated, are effective on or after January 1, 2023, with early adoption permitted, and have not been applied in preparing these consolidated financial statements. The Company does not plan to adopt any of these standards before they become effective.

- i. IAS 1, Presentation of Financial Statements ("IAS 1") was amended to clarify the classification of liabilities between current and noncurrent to be based on the rights that exist at the end of the reporting period and that such classification is unaffected by the expectations of the entity or events after the reporting date. The changes must be applied retrospectively in accordance with IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8") and are effective on or after January 1, 2023, with early adoption permitted.

The Company does not expect an impact to its consolidated financial statements on adoption.

- ii. IAS 1 was also amended to help preparers in deciding which accounting policies to disclose in their financial statements. The amendments are effective on or after January 1, 2023.

The Company does not expect an impact to its consolidated financial statements on adoption.

Credit risk

Credit risk is the risk of loss associated with a counter party's inability to fulfil its payment obligations. The Company's credit risk is primarily attributable to cash and cash equivalents and receivables. The Company has no significant concentration of credit risk arising from its properties. The majority of the Company's cash and cash equivalents are held with banks in

Canada and Colombia. Funds held in banks in Colombia are limited to yearly forecasted Colombian denominated expenses. The Company limits material counterparty credit risk on these assets by dealing with financial institutions with credit ratings of at least "A" or equivalent, or those which have been otherwise approved. Receivables mainly consist of receivables for refundable commodity taxes in Canada. Management believes that the credit risk concentration with respect to remaining amounts receivable is minimal.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company regularly evaluates its cash position to ensure preservation and security of capital as well as maintenance of liquidity. The Company manages its liquidity risk by proactively mitigating exposure through cash management, including forecasting its liquidity requirements with available funds and anticipated investing and financing activities.

As at March 31, 2022, the cash balance of \$12,586,000 is expected to be sufficient to meet its obligations in respect of its current liabilities of \$1,376,000, and anticipated exploration, evaluation and administrative expenditures over the next twelve months. However, the cash balance is not sufficient to meet all of its future obligations in respect of the option contracts in notes 8 and 18 if the Company elects to exercise all its options in respect of all the contracts. Thus, continued operations of the Company are dependent on its ability to develop a sufficient financing plan, receive continued financial support from existing shareholders and/or new shareholders or through other arrangements, complete sufficient public equity financing, or generate profitable operations in the future.

Interest rate risk

Interest rate risk is the impact that changes in interest rates could have on the Company's earnings and liabilities. The Company's cash balances are not subject to significant interest rate risk as balances are current.

(b) Capital Management

The Company manages its capital to maintain its ability to continue as a going concern in order to pursue the exploration and evaluation of its mineral interests. The Company mainly relies on equity issuances to raise new capital. The capital structure of the Company includes the components of equity as well as cash and cash equivalents.

On November 10, 2021, the Company filed a short form base shelf prospectus which will allow the Company to issue common shares, warrants, subscriptions receipts, units of debt securities among others for up to an aggregate total of C\$100,000,000. The base shelf prospectus is effective until December 2023.

The Company prepares annual estimates of exploration and administrative expenditures and monitors actual expenditures compared to estimates to ensure that there is sufficient capital on hand to meet ongoing obligations. The Company maintains its cash in highly liquid short-term deposits which can be liquidated immediately without interest or penalty.

The Company's overall strategy with respect to capital risk management has remained consistent for the three months ended March 31, 2022 with what was disclosed in the annual financial statements ended December 31, 2021.

14. REVERSE TAKE-OVER AND OFFERING

(a) Reverse Take-Over

On May 20, 2021, Old Collective and POCML completed a business combination agreement whereby POCML acquired all the issued and outstanding shares of Old Collective and which resulted in a reverse take-over of POCML by Old Collective (the “RTO” or the “RTO Transaction”) and constituted POCML’s qualifying transaction pursuant to TSXV Policy 2.4.

Upon closing of the RTO Transaction, the issued and outstanding common shares of Old Collective prior to the RTO were exchanged on a one for one basis of the resulting issuer company (the “Resulting Issuer”) while every four issued and outstanding shares of POCML, prior to the RTO Transaction, were exchanged for one common share of the Resulting Issuer. Management and directors of the Resulting Issuer were appointed by Old Collective. Immediately after closing of the RTO Transaction, the Resulting Issuer was renamed to Collective Mining Ltd. (“CML” or the “Company”).

The substance of the transaction was a reverse acquisition of a non-operating company with Old Collective being identified as the acquirer. The transaction did not constitute a business combination as POCML did not meet the definition of a business under IFRS 3 – Business Combinations (“IFRS 3”). As a result, the RTO Transaction was accounted for as a share-based payment in accordance with IFRS 2 – Share-Based Payments (“IFRS 2”) where the consideration for the RTO Transaction is determined as the fair value of CML shares issued to original POCML shareholders.

Further details of the transaction have been described in note 6 of the audited annual consolidated financial statements for the year ended December 31, 2021.

(b) Offering

In conjunction with the Transaction, the Company closed a total of C\$15,000,000 non-brokered private placement in the form of subscription receipts (“Subscription Receipts”) at a price of C\$1.00 per Subscription Receipt (the “Offering”).

Each Subscription Receipt holder (on a post-consolidation basis) received one unit in the capital of the Company at a price of C\$1.00 per unit (a “Subscription Unit). Each Subscription Unit consisted of one common share of CML (a “Subscription Share”) and one-half share purchase warrant of CML (each whole warrant, a “Subscription Warrant”). Each Subscription Warrant had an exercise price of C\$2.00 per share with an expiry date of May 20, 2024, which was accelerated to August 9, 2021.

Each Finders' Unit consisted of one Finders' Share and one-half of a Finders' Warrant, with the same terms and conditions as the Subscription Warrants (See (b)).

Further details of the offering have been described in note 12 of the audit annual consolidated financial statements for the year ended December 31, 2021.

15. SHARE BASED PAYMENTS

The Company adopted a stock option plan (the "Plan") pursuant to the Securities Act of Ontario (the "Act"). The aggregate maximum number of shares reserved for issuance under the Plan and all other security-based compensation arrangements (together "Share Compensation Arrangements") at any given time is 10% of the Company's issued and outstanding shares as at the date of the grant of the Share Compensation Arrangement. Any shares subject to a stock option under the Plan which have been exercised, cancelled, repurchased, expired or terminated in accordance with the Plan will again be available under the Plan.

Under the Plan, the Company may grant to directors, officers, employees, and consultants stock options to purchase common shares of the Company. Stock options granted under the Plan will be for a term not to exceed 10 years.
